Love

Love luck is met with so much turmoil when you are with your partner, you have to be more understanding, show more care and do not let your emotions affect your marriage life. Because of the low luck cycle, you have to be careful not to let rumours ruin your relationship. Youngsters may not be able to sustain their relationship for long. Couples who do not cherish this relationship will soon deviate in their paths.

Wealth

Wealth luck is bad, and you may face cash flow problems, so it's wise to eradicate your spendthrift habits now. Absolutely stay away from gambling and risky speculative activities; else there will be involvement in lawsuits. If you have investment plans, you have to think thrice or else there will be huge wealth leak. Income luck is stable, but there's no windfall luck. It's best to handle your finances personally, and beware of monetary traps. And knowing your luck means you also have to find ways to ward off the dangers.

Health

It's a very hectic year for you. With so many business-networking sessions, and your sleep affected by your emotions, you are unable to sleep tight at night. Health is affected as a result. Control your indulgence in alcohol and sex, as they will harm your body. Evil stars in your life chart are shining upon you, which means that you will get hurt and bleed easily. Be careful not to slip and fall or sprain yourself at home. Do not speed. Avoid dark small alleys at night to evade muggers and harm.
